## THE STRIKE QUESTION.

Commissioners May Make a Pre-  
 liminary Report Soon.

It is Officially Announced That if a  
 Award Affecting Existing Wages  
 Shall Be Made It Will Be Ef-  
 fective November 1.

Scranton, Pa., Oct. 31.—The seven  
 commissioners appointed by President  
 Roosevelt to adjust the differences be-  
 tween the anthracite mine workers and  
 employers Thursday made a tour of  
 the extreme upper coal field and saw  
 every step taken in the production of  
 coal from the time it is blasted from  
 the ground, hundreds of feet below the  
 surface, up to the point where it is  
 sent to make ready for the use of the  
 consumer.

Scranton, Pa., Nov. 1.—The first im-  
 portant action by the anthracite coal  
 strike commission, which is arbitrat-  
 ing differences existing between the  
 miners and their employers, was taken  
 Friday when it was announced by  
 Carroll D. Wright, the recorder of the  
 commission, that if any award af-  
 fecting the existing rate of wages  
 shall be made, the award shall be ef-  
 fective from November 1. The action  
 of the commissioners shuts off any  
 possible controversy that either side  
 may have desired to raise. The an-  
 nouncement of the commission was  
 contained in the following brief resolu-  
 tion:

Resolved unanimously, that if the com-  
 missioner, at the conclusion of its hear-  
 ings and deliberations, makes any  
 award affecting existing rates of  
 wages, such award shall take effect  
 from November 1, 1902.

Accompanying the resolution was a  
 brief statement made by Recorder  
 Wright in which he says:  
 "The resolution was adopted by the  
 commission because it felt that it was  
 important to make its investigations  
 deliberately and that it might be well,  
 in order to relieve itself from pressure  
 from any source which might cause  
 undue haste, to inform the operators  
 and the miners that should the inves-  
 tigation and the deliberations follow-  
 ing warrant any change whatever,  
 either in the way of increase or reduc-  
 tion of wages, such change should be  
 from a certain date, thus enabling all  
 parties to facilitate their calculations."

The commissioners spent the entire  
 day in continuing their inspection of  
 the mines and the mining region about  
 Scranton. They visited the Manville  
 colliery, operated jointly by the Dela-  
 ware & Hudson and the Delaware,  
 Lackawanna & Western Cos., in the  
 forenoon and the afternoon was spent  
 in riding through the region on a spe-  
 cial trolley car. The commission will  
 spend Saturday in the vicinity of  
 Wilkesbarre, returning here in the eve-  
 ning.

It is possible that the commission  
 may make a preliminary report on  
 the principal strike questions. They  
 are the increase in wages, a shorter  
 work day and the weighing of coal.  
 After these have been decided the  
 commission can take up all other ques-  
 tions without undue haste. It is known  
 the commissioners have this feature  
 under consideration and it is very  
 likely a preliminary report will be  
 made.

## THE FRENCH COAL STRIKE.

President Loubet is Taking An Active  
 Part in Settling It.

Paris, Nov. 1.—President Loubet, fol-  
 lowing the example set by President  
 Roosevelt, is taking an active part in  
 settling the French coal miners' strike.  
 Friday he held a conference with M.  
 Vincent, prefect of the department du  
 Nord, who has been acting as interme-  
 diary between the strikers and the  
 mine owners in that department. The  
 mine owners have given the prefect  
 the names of four persons who are to  
 represent them in a conference with an  
 equal number of strikers.

In a semi-official statement given out  
 Friday night President Loubet expressed  
 hope for an early settlement of the  
 strike and declares that this would be  
 a political accomplishment beyond  
 precedent.

Symathetic Strike.  
 Springfield, Ill., Nov. 1.—Five hun-  
 dred employees of the Wabash shops  
 here went on strike Friday in sym-  
 pathy with the boilermakers, who  
 struck a week ago for a uniform in-  
 crease to 30 cents per hour in all de-  
 partments. Those who quit work Fri-  
 day include blacksmiths, machinists,  
 fitters and pipemen. The strike is  
 general over the Wabash system and  
 includes shops at Ft. Wayne, Ind., De-  
 catur, Ill., and Moberly, Mo.

Serious Coal Famine Expected.  
 Knoxville, Tenn., Nov. 1.—Coal op-  
 erators believe a coal famine of seri-  
 ous proportions threatens Tennessee,  
 North and South Carolina, Virginia  
 and Georgia. The Southern railway  
 seems helpless to help the situation.

Cuban Minister to Mexico.  
 Mexico City, Oct. 31.—Gen. Carlos  
 Velez, the first minister to Mexico  
 from the republic of Cuba, was re-  
 ceived by President Diaz Thursday at  
 noon in the hall of ambassadors.  
 There was a large attendance of dis-  
 tinguished visitors.

Soldiers Going Home.  
 Wilkesbarre, Pa., Oct. 31.—Two  
 Fourth and Eight regiments, which  
 have been stationed in the Wyoming  
 valley for some time past, broke camp  
 Thursday and returned to their homes.  
 The 2d regiment broke camp Friday.

## GANG OF LADRONES.

Committed Various Outrages in the  
 Philippine Islands.

Manila, Nov. 3.—A portion of a  
 gang of Ladrones which has been oper-  
 ating on the island of Biliran (just  
 north of the island of Leyte), where  
 they committed various outrages,  
 crossed over to the island of Leyte  
 last Wednesday and entered a small  
 town near Carigara. Here they cap-  
 tured and beheaded the presidente of  
 the town, murdered his wife, whom  
 they slashed with bolos, and abducted  
 the presidente's children. The mo-  
 tive of this crime is said to have been  
 the presidente's friendliness with the  
 Americans.

Ladrones are again active in the  
 province of Rizal and Bulacan, Luzon.  
 Members of the native constabulary  
 engaged these bandits twice during  
 the past week at points close to Ma-  
 nila and succeeded in killing a number  
 of them. The constabulary are cap-  
 able of suppressing these Ladrones.

Reports received here indicate that  
 the situation on the island of Samar  
 is better than has been recently rep-  
 resented. A number of Dios Dios, or  
 religious fanatics, are still operating  
 there but officials report that the Sa-  
 mar police are able to handle the sit-  
 uation.

## SCHISMATIC CHURCH.

Body of a Native Woman Refused  
 Burial in the Catholic Cemetery.

Manila, Nov. 3.—The body of a na-  
 tive woman, who was attended at her  
 death by priests of the Catholic church  
 of the Philippines, was refused inter-  
 ment at the Pao cemetery, which is  
 owned by the Roman Catholic church.  
 There was a scene at the cemetery,  
 and the police were called in to main-  
 tain order. In retaliation for this re-  
 fusal of interment "Bishop" Aclejo and  
 other leaders of the Schismatic  
 movement, are discussing a plan to ap-  
 peal to the courts to obtain possession  
 of certain churches and other property  
 in the Philippines.

This independent church movement  
 is being watched closely in govern-  
 ment and political circles. The ex-  
 tent of the defection of native clergy  
 and their lay adherents from the  
 church of Rome is not known, but it  
 is claimed that a majority of the na-  
 tive clergy sympathize with the move-  
 ment. The appointment of an Amer-  
 ican archbishop to the Philippines,  
 however, with a clear definition of the  
 status of the clergy, would turn the  
 tide of both clergy and laity in favor  
 of the Roman church.

## DEVASTATED BY FIRE.

The Town of St. Pierre, Miquelon, Par-  
 tially Destroyed.

St. John, N. F., Nov. 3.—The town of  
 St. Pierre, Miquelon, has been de-  
 vastated by fire. A destructive con-  
 flagration started Saturday night and  
 swept the main portion of the town.  
 The governor's house, the government  
 buildings, the court house, the build-  
 ing occupied by the ministry of marine,  
 the Roman Catholic cathedral, the  
 Presbytery, the schools and a number  
 of other buildings were destroyed.  
 The extent of the disaster is very  
 far reaching, and the financial loss  
 will probably reach half a million dol-  
 lars. There was no loss of life or seri-  
 ous accident. The rapid spread of the  
 conflagration was due to the trifling  
 water supply and to the fact that St.  
 Pierre has no adequate fire fighting  
 appliances. The town of St. Pierre  
 has been partly burned down three  
 times before—in 1865, 1867 and 1879.

## RICH GOLD DISCOVERY.

A Stampede Comparable to the Mining  
 Rushes of the Early Days.

Dubuque, Mo., Nov. 3.—A rich dis-  
 covery of gold in the Dubuque dis-  
 trict has caused a stampede compar-  
 able to the mining rushes of the early  
 days. Knowledge of the find got out  
 Saturday evening and men started out  
 at once to secure claims. They kept  
 going all night and Sunday several  
 hundred men rushed to the scene of  
 the discovery. The discovery is a  
 hitherto unknown vein. The load was  
 blind and was opened in doing some  
 work on another vein. The vein was  
 opened Sunday at several other points.  
 At one point 500 feet from the original  
 discovery rich ore was met with and  
 in all the others good ore shows.

## COMMANDANT VILJOEN.

Offers His Services to the British  
 Army to Fight the Mad Mullah.

London, Nov. 3.—The Boer com-  
 mandant, Viljoen, has written a let-  
 ter to Earl Roberts in which he offers  
 his services to the British army. A  
 Boer is called to take the field against  
 the forces of the Mullah in Somalia-  
 land.

It was announced from Johannes-  
 burg October 31 that a number of for-  
 mer Boer commandants and British  
 officers had offered their services and  
 those of 1,000 men, half of them Brit-  
 ish and half Boers, for duty in Somal-  
 i-land.

## Assayer of the Chinese Mint.

Washington, Nov. 3.—Alfred E. Jas-  
 per, of New York, now head of the  
 testing laboratory in the supervising  
 architect's office of the treasury de-  
 partment, has accepted the position  
 of chief assayer of the Chinese mint  
 at Tien-Tsin, China.

## Opera Singer Killed.

St. Louis, Nov. 3.—William Roebuck,  
 aged 40 years, an opera singer, whose  
 home was in Lima, O., was killed Sun-  
 day by a suburban car. He was lying  
 on a trolley crossing the river Des  
 Perce and was badly mangled.

## A LOVER'S REVENGE.

Dynamite Bomb Killed Two and  
 Injured Others.

Chas. Smith, Former Boarder, Who  
 Was Paying Attention to One of  
 Kordeck's Daughters, Arrested  
 For the Crime.

Chicago, Nov. 3.—A dynamite bomb,  
 the weapon of a deranged assassin,  
 blew up the home of Joseph Kordeck  
 in Chicago Heights Sunday, killing  
 two members of the family outright,  
 and injuring several others. The house  
 was set on fire and burned,  
 while that of a neighbor caught fire  
 and was also destroyed. The dead:  
 Joseph Kordeck, arms and legs broken  
 off; Lucy Kordeck, aged 2, body blown  
 to pieces. The injured: Mrs. Lucy  
 Kordeck, flesh blown off right side,  
 injured internally, may die. Seven  
 children who escaped were injured,  
 but not seriously.

The explosion occurred while the  
 family was asleep. The father and  
 mother with the daughter Lucy occu-  
 pied a room in the front of the cot-  
 tage. On the other side were rooms  
 occupied by the rest of the family.  
 The cottage stood two feet from the  
 ground on wooden posts. The bomb  
 was placed under the room occupied  
 by the parents and the impact of the  
 explosion tore a hole in the floor, blew  
 the bed to pieces, dismembered Kor-  
 deck and scattered into fragments the  
 body of Lucy, who was sleeping with  
 her parents. Pieces of flesh the size  
 of a man's hand were the largest re-  
 mainants of the child's body that could  
 be found. The force of the explosion  
 was directly upward and tore a piece  
 of flesh from Mrs. Kordeck's side and  
 blew her through a window. The noise  
 aroused the rest of the family and  
 they had hardly time to escape from  
 the flames which soon destroyed the  
 cottage. Kordeck's body, torn to  
 shreds, was found in the debris after  
 the fire.

Charles Smith, a former boarder at  
 the Kordeck home, who was paying  
 attention to one of Kordeck's daugh-  
 ters, has been arrested charged with  
 the crime. The Kordeck girl was to  
 have been married to another man  
 next week. Smith declares he is in-  
 nocent but neighbors declare that he  
 made threats to them that if the girl  
 refused to be his wife he would blow  
 up the entire family with dynamite.  
 Smith was absent from his room at the  
 time of the explosion. His roommate  
 Thomas Kobilinski, claims that Smith  
 returned to his room greatly excited  
 shortly after the explosion.

## SPANISH VESSEL SUNK.

Collided With a British Steamer—Sev-  
 eral Lives Lost.

London, Nov. 3.—The British steam-  
 er St. Regulus, Capt. McMullen, from  
 Shields, for Alexandria, has put in at  
 Gravesend. She reports having col-  
 lided with and sunk the Spanish steam-  
 er, Captain Enrera, Capt. Delgado, from  
 Huelva, Spain, October 22. With the  
 exception of three members, the crew  
 of the Enrera were drowned. The ac-  
 cident occurred Friday night off Dun-  
 geness.

The captain of the St. Regulus says  
 that when his vessel struck the Enrera  
 he gave the order for full speed ahead  
 with the idea of keeping the two ves-  
 sels locked together and thus enabling  
 the crew of the Spanish ship to board  
 the St. Regulus, but either they were  
 too greatly alarmed to do so or they  
 failed to understand his purpose, and  
 instead of climbing on board the Brit-  
 ish ship, they tried to lower a boat  
 with result that a number were thrown  
 into the sea and drowned. The Enrera  
 sank in a few moments. The explo-  
 sion of her boilers probably killed  
 many of her crew.

The St. Regulus was badly damaged,  
 a large hole being made in her sides.

## STRUCK BY A TRAIN.

Four Men Killed on the Crossing at  
 Algonquin, Ill.

Elgin, Ill., Nov. 3.—Frank and Louis  
 Schutte and Charles and James  
 Woodrich were killed early Sunday at  
 Algonquin, Ill., where the Milk Ex-  
 press on the Chicago & Northwestern  
 railway struck their carriage on the  
 crossing of the main street of the vil-  
 lage. All were killed instantly ex-  
 cept Louis Schutte, who died at a  
 hospital. All lived at Algonquin ex-  
 cept James Woodrich, whose home  
 was at Kilmorran City, Wis. The  
 young man had started to drive to  
 Dundee before daylight and did not  
 see the train on account of the dark-  
 ness and the cover of their buggy.

## Football Player Fatally Injured.

Knoxville, Tenn., Nov. 3.—Walter  
 Cole, fullback of the Tennessee deaf  
 and dumb school football team, was  
 reported dying Sunday night as a re-  
 sult of injuries received in a game  
 played at Maryville, Tenn., Saturday.  
 He has a broken collar bone and sev-  
 eral internal injuries. Cole's home is  
 at McKeesport, Pa.

## Coinage Statement.

Washington, Nov. 3.—The monthly  
 coinage statement issued by the dis-  
 cretary of the mint shows that in the  
 month of October, 1902, the total coin-  
 age was \$1,459,559, as follows: Gold,  
 \$1,890,000; silver, \$2,287,000; minor  
 coins, \$282,559.

## Recorded Its Action.

Chicago, Nov. 3.—The Chicago Fed-  
 eration of Labor Sunday rescinded its  
 act of expulsion against Typographical  
 Union No. 16 and offered to reinstate  
 the delegates when they apply  
 for admission.

## PRESIDENT'S PROCLAMATION.

Thursday, November 27, Designated as  
 a Day of General Thanksgiving.

Washington, Oct. 30.—President  
 Roosevelt issued the following Thank-  
 giving proclamation:

"According to the yearly custom of  
 our people, it falls upon the president,  
 at this season, to appoint a day of fes-  
 tival and thanksgiving to God.  
 "Over a century and a quarter has  
 passed since this country took its  
 place among the nations of the earth,  
 and during that time we have had, on  
 the whole, more to be thankful for  
 than has fallen to the lot of any other  
 people. Generation after generation  
 has grown to manhood and passed  
 away. Each has had to bear its pen-  
 ar hardships, each to face its special  
 crises, and each has known years of  
 grim trial, when the country was men-  
 aced by malice, domestic or foreign  
 levy, when the hand of the Lord was  
 heavy upon it in drought or flood or  
 pestilence, when in bodily distress and  
 anguish of soul, it paid the penalty of  
 folly and a forward heart.  
 "Nevertheless, decade by decade, we  
 have struggled onward and upward.  
 We now abundantly enjoy material  
 well-being, and under the favor of the  
 Most High, we are striving earnestly  
 to achieve moral and spiritual uplift-  
 ing. The year that has just closed has  
 been one of peace and of overflowing  
 plenty. Rarely has any people en-  
 joyed greater prosperity than we are  
 now enjoying. For this we render  
 heartfelt and solemn thanks to the  
 Giver of Good; and we seek to praise  
 Him, not by words only, but by deeds,  
 by the way in which we do our duty  
 to ourselves and our fellow men.  
 "Now, therefore, I, Theodore Roosevelt,  
 president of the United States, do hereby  
 designate as a day of general  
 thanksgiving Thursday, the twenty-  
 seventh day of the coming Novem-  
 ber, and do recommend that  
 throughout the land the people cease  
 from their ordinary occupations, and  
 in their several homes and places of  
 worship, render thanks unto Almighty  
 God for the manifold blessings of the  
 past year."

"In witness whereof, I have here-  
 unto set my hand and caused the seal  
 of the United States to be affixed.  
 "Done at the city of Washington  
 this 29th day of October, in the year of  
 our Lord, one thousand nine hundred  
 and two, and of the independence of  
 the United States, the one hundred  
 and twenty-seventh."

## VIENNA PILGRIMS.

One-Third of the Population Visited  
 the Central Cemetery.

Vienna, Nov. 3.—One-third of the  
 population of Vienna made pilgrimages  
 Saturday and Sunday, All Saints' day  
 and All Souls' day respectively, to the  
 Central cemetery of Vienna. The pil-  
 grims started in the early morning and  
 returned late at night. Some went on  
 foot, while others used vehicles of all  
 descriptions. It is estimated that 600,  
 000 persons visited the graves in the  
 cemetery on these two days. The pil-  
 grims all carried wreaths of flowers,  
 and before the tombs and in the long  
 grass burned countless candles. The  
 sparsely occupied parts of the cemetery  
 presented a weird and picturesque  
 spectacle.

The monuments to Mozart, Bee-  
 thoven and Schubert, as well as the  
 plot where are buried the 600 victims  
 of the Ring theater fire of 1881, at-  
 tracted thousands of visitors. This  
 cemetery is the largest in Europe and  
 contains 622,000 graves.

Emperor Francis Joseph and other  
 members of the royal family placed  
 wreaths upon the coffins of the em-  
 press and of Crown Prince Rudolph  
 in the vaults of the Capuchin church.

## SNOW IN NEW MEXICO.

Hundreds of Sheep Caught Unexpect-  
 edly, Perished.

El Paso, Tex., Nov. 3.—A cold wave  
 has swept over this section during the  
 past 12 hours and reports from the  
 surrounding mountain regions indicate  
 that the snow fall has been heavy on  
 the slopes in New Mexico. Hundreds  
 of sheep caught unexpectedly in the  
 open have perished, and below this  
 city in the Rio Grande valley the  
 losses have been heavy.

## LOCOMOTIVE EXPLODED.

Three Trainmen Killed on the Balti-  
 more & Ohio Railroad.

Baltimore, Nov. 3.—Three trainmen  
 were almost instantly killed Sunday  
 by the explosion of a boiler of a Bal-  
 timore & Ohio locomotive at Hale-  
 thorp. Traffic was delayed about  
 three hours by the accident. Those  
 who were killed were: Engineer E.  
 W. Biggs, Fireman O. W. Hunt and  
 brakeman C. O. Stalling.

## Eddie Bald Won.

Paris, Nov. 3.—"Eddie" Bald, the  
 American bicyclist, won the interna-  
 tional scratch bicycle race at the Pa-  
 rades Princes Sunday afternoon. The  
 distance was 1,458 yards. Bald's time  
 was 2 minutes 33 1/5 seconds.

## The Emperor as a Hunter.

Berlin, Nov. 3.—The royal game-  
 keepers' bureau has kept a record of  
 Emperor William's hunting. During  
 30 years he has killed 47,442 pieces of  
 game, including 3,889 deer, elk or  
 chamois, 2,825 wild boars, 79,508 hares  
 or rabbits and 18,891 pheasants.

## Fatal Head End Collision.

Schenectady, N. Y., Nov. 3.—A  
 freight brakeman was killed and a  
 freight conductor slightly injured in a  
 head end collision between two freight  
 trains west of this city on the New  
 York Central Sunday night.

## ON CEDAR MOUNTAIN.

President Spent Several Hours on  
 the Historic Battlefield.

Roosevelt Was Given An Old Shell  
 Which Had Been Dug Up in the  
 Field as a Memento of  
 His Visit.

Brandy Station, Va., Nov. 3.—Presi-  
 dent Roosevelt passed several hours  
 Sunday afternoon on the battlefield of  
 Cedar mountain. The day was per-  
 fect and the drive to the battlefield  
 was as pleasurable as could be desired.  
 The president, accompanied by Sec-  
 retary Root, Secretary Cortis, Dr.  
 Riser, Judge Grimsley and two or  
 three ladies, arrived at the battlefield  
 shortly after 9 o'clock. They were  
 followed by a procession of carriages  
 containing people from Culpeper and  
 surrounding country.

On arrival at the battlefield, which  
 is dotted here and there by moun-  
 tains marking the positions of the  
 troops during the fight, the contest  
 was explained to the president by  
 Judge Grimsley. The judge was a cap-  
 tain in the Sixth Virginia cavalry and  
 was a participant in the fight. The  
 president was interested particularly  
 in the account of the famous First  
 cavalry charge made during the bat-  
 tle of Cedar mountain. The union  
 and confederate cavalry met in a de-  
 pression not far from Cedar mountain.  
 While the battle did not last long and  
 was brought on quite unexpectedly it  
 was frightfully sanguinary, one losses  
 on both sides being about 3,200.

The president was notably interest-  
 ed in a monument erected last August  
 on the anniversary of the battle by  
 the survivors of the 20th New York  
 infantry, which lost in the engage-  
 ment 50 per cent. of its men, includ-  
 ing nearly every commissioned officer.

In the very heart of the battlefield,  
 President Roosevelt Sunday held an in-  
 formal reception. Many people had  
 gathered from the surrounding coun-  
 try. Subsequently the president was  
 given a shell which had been dug up  
 on the battlefield, as a memento of his  
 visit.

Sunday morning the president and  
 his party attended services at the Ban-  
 ner church of Culpeper. Until a short  
 time before the services began it was  
 not known that the president was to  
 be present. No special services mark-  
 ed his presence. Rev. E. W. Winfree,  
 pastor of the church, one of the oldest  
 religious organizations in Virginia,  
 made a reference to the president in  
 his opening prayer, but did not allude  
 to him in his sermon. The church  
 was crowded, and at the conclusion of  
 the services President Roosevelt cor-  
 dially greeted the pastor and many  
 members of the congregation and in-  
 troduced them to those who accompa-  
 nied him.

Every precaution possible was taken  
 to ensure his safety. Two hundred  
 men from Washington, in addition to  
 the regular detail of secret officers,  
 were on guard.

The presidential special arrived in  
 Washington Monday morning. Later  
 the president will leave Washington  
 in a special train for Oyster Bay,  
 where he will vote on Tuesday.

## TO ARRANGE FOR A DUEL.

M. Gerault Richards and the Marquis  
 de Dion the Contestants.

Paris, Nov. 3.—M. Gerault Richards,  
 of the Petite Republique, has tele-  
 graphed two of his friends to meet  
 the seconds of the Marquis de Dion  
 Monday and arrange for a duel. The  
 Marquis de Dion, who is a member of  
 the chamber of deputies, grew out of a  
 recent angry discussion in a corridor of  
 the chamber. The Marquis de Dion  
 slapped M. Gerault Richards' face. The  
 seconds are Mm. Brunet and Syveton.

**HOPKINS BY 3500**

The letters of John G. White operated like a boomerang, with the result that FRANK HOPKINS is elected by the handsomest majority ever accorded any man in the Tenth District, and with it all old Wolfe holds her own.

Br'er White's constituents evidently didn't put up the coin to an alarming extent. Vale, dear brother!

## Explanatory, Apologetic, Etc.

The publisher of this paper has been ill for some time. Under ordinary circumstances it is a serious thing for the editor and publisher himself when he falls sick, not to mention the annoyance and disappointment of his subscribers and advertisers, the first of whom (we lay the flattering unction to our soul) miss their favorite journal, while the latter are compelled to wait until a later date to get their announcements before an impatient public. We have to acknowledge our obligations to both and to express our sincere gratitude for their toleration in not having (as yet) decorated an adjacent tree with our mortal coil or rendered more perfect our resemblance to a "bird."

There is no knowing how long the above-described gloomy condition of things might have continued had we not fortuitously become possessed of information concerning the whereabouts of an old-time typographical globe-trotter who by some inscrutable decree of fate wandered into these mountains last August and had never found his way out. In fact, he wrote us, stating his intention of paying us a visit—or a visitation—before returning to the haunts of the ravenous Mergenthaler and Hoe multiple. Of course we mustered up a show of cordiality and pressed him to come; for hadn't he and we pounded lead together in a former state of existence in Printers' Heaven, on the Chickasaw bluff over against Abkinsaw? Things had got to a pretty bad pass with us; physically unable to labor and mentally disinclined to exertion, we had missed two issues of THE HERALD; printers don't grow on the persimmon trees in this immediate vicinity, and we felt blue—very blue—and were placidly contemplating flight or suicide, when, like a gallant knight of old, our rescuer on last Sunday morning rode into town on a flea-bitten old gray horse, his worldly

belongings crammed into a yaller grip, grasped tenaciously by a diminutive Senegambian astride the fiery steed behind the saddle.

We feel that for the present our mechanical difficulties, or the worst of them, are over; but there is no telling how soon the desire for the wild dissipations of city life or for "fresh fields and pastures new" will seize our able assistant, when he may

"Fold up his tent like the Arab" And incontinentally clear out.

Therefore send along your job-work at once. Now is the time to subscribe.

Since the year 1897 Russia has produced more petroleum than the United States. Beginning with that year, the Russian output has been increasing by an average of over 12 per cent. each year to the close of 1901. In round numbers, the figures of production for the two countries are as follows: 1897—Russia, 54,000,000 barrels; United States, 60,000,000 barrels. 1898—Russia, 62,000,000 barrels; United States, 55,000,000 barrels. 1899—Russia, 66,000,000 barrels; United States, 57,000,000 barrels. 1900—Russia, 76,000,000 barrels; United States, 64,000,000 barrels. 1901—Russia, 85,000,000 barrels; United States, 69,000,000 barrels. The average annual increase during the five years for Russia has been 12.57 per cent.; for the United States, 2.89 per cent., there having been a small decrease in the production of the United States in 1897 and a large decrease in 1898.

Gen. Lord Roberts, commander-in-chief of the British army, will visit the United States in the near future, for the purpose of inspecting our military system and incidentally having a good time. He will doubtless carry back with him kinder feelings toward Americans than did his distinguished predecessors from the "right little, tight little island," Cornwallis, Clinton, Burgoyne and others.

A whole lot of election prophets know more and talk less to-day than they did last Monday. It is a good plan, usually, to follow the Yankee farmer philosopher's advice: "Don't never prophesy unless ye know, an' don't prophesy too much even then, fur it's better not to know nawthin' than to know too darned much thet ain't so."

Representatives of the Smith family have applied for space for a building at the St. Louis World's Fair, to be the headquarters of the members of that great family when visiting the Exposition. Some inquiring genius has calculated that there are 14,000,000 Smiths in the world.

A movement is now on foot for a combine to control all the lighting and trolley companies in the country. The theory is that the same machinery can be utilized for both purposes.

Great Britain buys over 11,000 tons of German toys annually, while the United States ranks next with an importation of about 6,000 tons.

German coffee-growers occupy nearly 1,000,000 acres in Central America, on which they have already planted over 20,000,000 trees.

## EDITORIAL ERUPTIONS.

Cleveland has a touch of the political fever. He says the Democratic opportunity has arrived.

Oom Paul Kruger seems to be fighting the war all over again, but he is doing it with his pen. Now let "humanity shudder."

There is certainly something the matter with Mexico. Up to last Saturday there had been forty-five earthquakes at San Cristobal.

—Mr. Neely has decided to give up the fight for that \$6,000 which was taken from his person when he was arrested in Cuba.

How many have our readers to lend?—A dollar, loaned for 100 years and compounded at 24 per cent., will amount in that time to \$2,551,790,404.

According to the report forwarded to the French Minister of Education, children of 4 years should sleep 12 hours; of 7 years, 11; of

9 years, 10; of 12 to 14 years, 9 to 10, and from 14 to 21 years from 9 to 10 hours.

The coal strike commission is now busily engaged in investigating the cause of all the trouble. We believe the arbiters will be fair to both sides.

Uncle Sam is very anxious to start work on the Panama Canal, and will commence as soon as a payment is made. The treaty with Colombia will be arranged after.

We are now in the Thanksgiving month. What have you had, or what have you got, to be thankful for? Every person certainly has something for which to offer heartfelt gratitude.

"Progressive Canada" estimates that "the population capacity of Canada can not be less than one hundred millions." There are a million three hundred thousand square miles of arable land.

An amusing story is told of a man recently condemned to death in France, who was asked, according to custom, what he would prefer for his last meal. He chose mussels, which, though his favorite dish, always, he said, caused him a terrible fit of indigestion. "This time, however," he grimly added, "they will not have the chance."

In a recent sermon Rev. Dr. Parkhurst referred to the revered leader of the Christian Scientists as "a shrewd, but conscienceless, woman, who lies and knows she lies (granting her to be of even ordinary intelligence), but who finds in the roomy vacuity of her susceptible devotees easy space for the inلودgment of her astounding conglomerate of piety and puerility."

More than \$20,000,000 is invested in the manufacture of sewing machines in the United States, and more than \$21,000,000 worth of machines are turned out annually. Yet the sewing machine industry is of comparatively recent growth. The technical beginning of the industry in this country was Sept. 10, 1846, when Elias Howe, Jr., obtained a patent for what grew into the first really practical sewing machine.

Congressman Charles N. Fowler, of New Jersey, tells a story of a small boy who was over-supplied with green apples: "I had gone to see one of my constituents down in Union county," said the Congressman, "and found him trying to give some medicine to a young son who had eaten too many green apples, while a Christian Science neighbor was assuring the boy that there was nothing at all the matter with him. 'I think I ought to know,' groaned the boy; 'I've got inside information.'"

The following startling list of "strike losses" is going the rounds of the press. It is for the twenty-three weeks of the anthracite coal strike:

## Swango Spring Sold.

Mr. Rittenhouse, of the Rittenhouse Cannel Coal Co., last Monday bought of Uncle Harry Swango his celebrated mineral spring and thirty acres of unimproved land. Mr. Rittenhouse will at once begin the erection of a first-class modern hotel, cottages, etc., and lay off the grounds with a view of making the place a summer resort that the value of the water justifies. From what is known of the gentleman's business ability, the people here believe that we can soon boast of a summer resort equal to anything of the kind in the country. Herebefore the accommodations have never been adequate, hundreds being turned away every season. With a first-class hotel and other modern improvements, it will only be a question of water supply, and if the spring affords sufficient quantities hundreds of people will come here during the season, from May 1 to November or December.

The two streets now being graded near the Academy will add very much to the beauty of that part of town.

Jim Pres. Powers and wife, of Pikeville, were visiting Mr. Powers' sister, Mrs. Mattie Perkins, of Lacy creek, last week.

The new Academy building was formally received by the committee last week, and will be dedicated on Thanksgiving day. Prof. Cord thinks of having an oyster supper on the occasion, to help raise funds for the cottages.

Married, on Oct. 23, at Bush-ton, Ill., James Amys and Miss Etta James. Mr. Amys is from Mt. Sterling, and is a son of Pres. Amys, while Miss James is a native of this county and a daughter of Mrs. Angeline James.

Dewese Wilgus, who will be remembered as the head bricklayer on the academy, is again here at work, and contemplates moving his family here for permanent residence, that he may have the advantage of low rent and a number one school. He now lives at Lexington.

H. F. Pieratt & Co. have bought the stock of goods from Wilson & Co. at Neola, and on Monday began invoicing the same, much or all of which they will merge with their merchandise at this place.

Later—Since the above was put in type it is learned that Mr. Johnson has bought property at Bush-ton, Ill.

The rumor is current here that options have been secured upon every foot of coal land between Helechwah and Daysboro, and the opinion prevails that this means the extension of the O. & K., or, rather, a branch of that road, to Hazel Green. This opinion is much strengthened by the purchase of Swango spring, as Mr. Rittenhouse is believed to be a man of too much business sagacity to invest in property at a distance from railway communication.

Oscar McNabb last week bought of Burns Kash his farm, lying about a mile north of Hazel Green, on the State road, for \$2,000 cash. The place comprises about 200 acres and just moderate improvements. Prior to buying Mr. McNabb took a tour through Coles and some other counties of Illinois, and then, concluding that Old Kentucky was good enough, and that Hazel Green offered especial educational advantages, he closed the deal.

Taylor Johnson, who left here two months ago for Kansas, is now en route for "My Old Kentucky Home." At any rate his son Garrett, accompanied by Curtis Pieratt, recently discharged from the army, started on the 21st inst. from Parker, Kansas, to drive Mr. Johnson's team through. But he will locate at West Liberty, rather than encounter the "slings and arrows of outrageous fortune," which he fears his friends here would hurl upon him. But we are authorized to say that if he will again come to our loving embrace "he will not be noticed."

## Physical Culture.

Under the instruction of George Dyer the students of Hazel Green Academy are now able to take lessons in physical culture, and every young man and young lady should improve the opportunity. Only those who have suffered from sick-

ness can appreciate the blessings of perfect health, and those who master physical culture may escape from illness altogether. Moreover, a healthy body makes a healthy mind, and the time required to take physical culture is as profitable as the time given to any study. It is today regarded by scientific men the world over as one of the most important lessons taught, and Mr. Dyer has here already demonstrated its desirability beyond a doubt. And the cost, 50¢ a month for each student, one lesson a day, is a mere bagatelle.

## Good Roads Wanted.

How many of Hazel Green's residents realize the beauty of their town's surroundings—the superb hill and valley scenery—or the extent and value of the natural resources by which they are environed? Very few, we opine. Were it otherwise, the approaches to this little elysium would be improved; we should have good roads in every direction, and especially to the nearest railway station, that mankind in general "and the rest of the world" might have facilities for reaching and enjoying the delights of our salubrious climate and unsurpassed views of mountain and plain. A well-made macadamized road to Helechwah—the most pressing immediate want—would be worth hundreds of thousands of dollars in money and return untold pleasure and comfort to ourselves and our visitors, great numbers of whom would naturally flock hither in the summer months. Who will head the subscription list to that end?

## Academy Notes.

Pearre Hall, Hazel Green Academy's new building on Harrison Heights, will be dedicated Thanksgiving Day, the 27th inst.

Miss Mary A. Lyons, State C. W. B. M. organizer of Ohio, will deliver the principal address. Her theme will be "The Oak and the Corner-stone."

Surely all former students and friends and patrons of Hazel Green Academy will be here on Thanksgiving Day.

The pastor and members of the Methodist church joined in the union service at the Christian church last Sunday evening. The theme was "The Christian Citizen."

At an appointed time in this month the citizens, friends, patrons and students of Hazel Green Academy will be asked to plant trees on the academy campus.

What is in the way of developing all the mineral springs in the vicinity of Hazel Green? What do our citizens say to organizing the Hazel Green Mineral Springs Company, to develop the springs and attract people hither for the summer season?

Maudie Dora Millard, daughter of Mr. and Mrs. John B. Millard, died at the home of her parents on Sunday morning, 2d inst. She was a student at Hazel Green Academy for two sessions, leaving here last June. She was interred Monday in the family burying-ground near Bloomington, in Magoffin county.

Wm. H. Cord conducted the funeral services in the presence of a numerous gathering of sorrowing friends and relatives.

Wm. H. Cord recently delivered an address on "The Mountain Problem" at Millersburg, before the Y. P. S. C. E. convention of the Fourth Kentucky district.

## Notice.

To all whom it may concern: Notice is hereby given that on or about the 12th day of October, 1897, I gave to one Jesse W. Congleton six promissory notes of \$50 each and one of \$40, due and payable one each year on the 12th day of October, until each of said notes were paid. Please take notice that by an agreement between said Jesse W. Congleton and myself all matters of debt existing between us by note or otherwise has by mutual consent been arbitrated and settled, and I do not owe said Congleton one cent, or other amount, said notes or otherwise, and all persons are hereby warned to not buy said notes, or any part thereof, expecting me to pay same. This 5th day of November, 1902. JAMES SMITH, Pomeroyton, Ky.

## Kentucky Kernels.

The Bank of Hanson, paid-up capital \$20,000, has opened for business at Madisonville.

Vandals plundered the Danville News office and pried the newspaper forms Saturday night.

Mrs. Mary Smith's residence, at Frankfort, was destroyed by fire Sunday. Loss \$3,000; partially insured.

The best gas well in the Morgan county field was shot by the Peble Land and Oil Co. on Elk Fork Monday.

It is stated that Pigg Taylor, a 13-year-old negro boy, and two cows have died of hydrophobia at Valley View, Madison county.

At Pilot View, near Winchester, Sunday, Miss Laura Williams, 10, was accidentally shot by Willie Jones, a visitor, and died Monday morning.

Wash. Sharf, a respected negro of 60, was shot to death at Oakland by another negro, who is now in the Bowling Green jail to prevent lynching.

Tom McCormick's big stock barn near Mt. Sterling burned Sunday, with two horses, a wagon and considerable provender. Loss, \$1,000. Incendiary.

## THE ORIGIN OF GOLF.

Game Was First Played by a Scotch Shepherd with His Crook and a Pebble.

The man or woman who has become interested in golf must needs know something of its origin over in Scotland. In his book, "The Art of Golf," Sir W. G. Simpson tells the following pretty story as to how the game had its beginning:

"A shepherd leading his sheep would often chance upon a round pebble, and, having his crook in his hand, would strike it away; for it is as inevitable that a man with a stick in his hand should aim a blow at any loose object lying in his path as that he should breathe. Over pastures green this led to nothing; but once upon a time a certain shepherd, feeding his sheep on a links, perhaps that of St. Andrews, rolled one of these stones into a rabbit scrape.

"Mary," quoth he, "I could not do that if I tried," a thought which nerved him to the attempt. But a man cannot long persevere alone in any arduous undertaking, so Mr. Shepherd hailed another, who was hard by, to witness the endeavor. "That is easy," said the friend, and, trying, failed. They now searched the grass for the round pebble, and, having deepened the rabbit scrape, so that the stones might not jump out of it, they set themselves to practice putting.

"The stronger but less skillful shepherd, finding himself worsted at the amusement, protested that it was a fairer test of skill to play for the hole from a considerable distance. With this arranged, the game was found to be much more varied and interesting. The sheep having meanwhile strayed, the shepherds had to go after them.

"This proving an exceedingly irksome interruption, they hit upon the ingenious device of nailing a circular course of holes, which enabled them to play and herd at the same time. These holes being now many and far apart, it became necessary to mark their whereabouts, which was easily done by means of a tag of wool from a sheep attached to a stick, a primitive kind of flag still used on many greens, almost in its original form. Since these early days the essentials of the game have altered but little."

## Scotsman's Precise Folly.

Maj. James B. Pond, of world-wide repute as a pilot of celebrities of the concert stage and the "lyceum," tells of a waiter, a Scotsman, of whom he once inquired the exact time to leave to catch the morning boat plying between the river town where he was visiting and the next stopping place on his itinerary.

"Well, I canna' tell ye jist whit time 'twill be; but ye'll leave five minutes afore ye see the steamer comin' round the pint, ye'll jist be in time to catch it, sir."—Philadelphia Times.
